BOX-01 - Standard pallet

Machine fixed directly onto an ISPM-15 treated wooden pallet, protected with stretch film, corner protectors and straps when required.

Recommended application

- Small and robust equipment.
 - Road transport.
 - Cost-effective air transport.
 - Shipments within Europe.
-

Packaging components

- ISPM-15 treated wooden pallet.
- Machine-to-pallet fixing screws or anchors..
- Stretch film.
- Corner protectors.
- Transport and handling labels.

Main advantages

- Minimum cost.
 - Fast preparation.
 - Lower weight and volume.
 - Suitable solution for low-risk transport.
-

Limitations

- Limited protection against humidity.
 - Limited protection against strong impacts.
 - Not recommended for sea freight without additional protection.
-
