

[SNAPSUITE]

ONE MACHINE.
INFINITE POSSIBILITIES.

[SMARTBOX]

< PROCESS TRACKER >

EFFICIENCY, FLEXIBILITY & SUSTAINABILITY

Bring real-time process control and full digital connectivity to your production line. Repair, clean, cure, inspect, move, and track — all in one smart ecosystem.

Revolutionize your workflow with ultra-modular intelligence:

- One machine, multiple operations: clean, inspect, move, cure.
- **SMARTBOX** for centralized control and data intelligence.
- **PROCESS TRACKER** for real-time KPI visualization and traceability.
- Ultra-modular architecture for flexible workflows.
- High precision and repeatability for consistent quality.

ULTRA-FLEXIBLE WORKFLOW

SNAP SUITE's core technologies can be used at every stage of the process to adapt to different needs.

CENTRALISED CONTROL

SMARTBOX manages and coordinates all SNAP SUITE possibilities to ensure seamless operation.

REAL-TIME MONITORING

PROCESS TRACKER follows up on data and KPIs, ensuring transparency and efficiency.

DECISION SUPPORT

Data-driven insights help to maintain competitiveness and enable informed decision-making.
