- Possibility of planned or on-demand interventions
- Periodic technical follow-up included
- Hours consumed in minimum blocks (0.5 h remote / 2 h on-site, travel expenses not included)

# Pack 50 Hours

## General Conditions

- Hours will be consumed based on the actual time dedicated, including preparation, intervention, and reporting.
- Travel expenses, meals, and accommodation are not included unless otherwise agreed.
- Weekend or emergency interventions may be subject to additional charges.
- The client must ensure access to the facilities, compliance with safety conditions, and the availability of the required resources.
- Unused hours within the validity period are non-refundable.

## Differential Value

These packages allow the client to work with us as a true technology partner, with access to:

- Multidisciplinary experts in machinery, processes, software, and AI.
- Continuous optimization of complete production lines.
- Technical consulting on consumables.
- Development of customized improvements and upgrades.
- Strategic support for industrialization.
