

17 – R&D&I Service Proposal

Incorporatechno – Industrial Innovation Partner El grupo propone un servicio integral de Investigación, Desarrollo e Innovación (I+D+i) orientado a apoyar a nuestros clientes en el desarrollo, validación e industrialización de nuevas tecnologías, procesos y productos.

The group offers a comprehensive R&D&I service aimed at supporting our customers in the development, validation and industrialization of new technologies, processes and products.

Nuestro enfoque combina capacidades de ingeniería, microelectrónica, software test y validación industrial, apoyado en una estructura interna multidisciplinar y un ecosistema de financiación pública.

Our approach combines engineering, microelectronics, software, industrial test and validation capabilities, supported by a multidisciplinary internal structure and a public-funding ecosystem.

Objective: reduce technological risk, accelerate time-to-market and ensure the industrial viability of the developed solutions.

Positioning

- Strategic technology partner
- Integrator of hardware + software + process + AI
- Industrial validation center (Smart Demo Center)
- Applied innovation platform for production

We are not a theoretical laboratory → we are executable industrial R&D

Service Structure

- Closed project (defined milestones)
- Hour-based package (flexible)
- Multi-year R&D program
- Co-funding through public grants
- Possibility to significantly reduce customer cost through subsidies

17 – R&D&I Service Proposal

Reduction of technological risk
Validation before investment (CAPEX)
Acceleration of time-to-market
Access to advanced technologies
Competitiveness improvement
Direct transfer to production

Group Experience and Capabilities

La experiencia y capacidades del Grupo combinan:

- Industrial engineering
- Test engineering
- Applied microelectronics
- Industrial software & AI
- Smart Demo Center
- Experience in complete production lines

Unique Value Proposition

We are unique in the market: “Develop, validate and industrialize new technologies with a single partner, reducing risk, cost and time.”
